ALPA-PAC

ROLL OF

DISTINCTION

2012

A member service of Air Line Pilot.
A
s you’ve heard from me before, 2012 was a year of accomplishment for ALPA on Capitol Hill. In the face of tremendous headwinds, we accomplished several long-term goals and made great progress on several more. We owe all of these victories in no small part to the pilots whose names are printed in this year’s ALPA-PAC Roll of Distinction.

ALPA-PAC is the tool that enables all of our victories on Capitol Hill. The relationships we’ve built with the PAC and the outreach we are able to do through the PAC proved to be the difference last year in achieving all of our accomplishments. These included

- reauthorizing the FAA for a full four-year term,
- reforming the Export-Import Bank’s aircraft financing practices,
- halting a foreign multilateral investment proposal,
- excluding our airlines from the extremely regressive EU emissions trading scheme, and
- fully funding the Federal Flight Deck Officer program.

We must continue to build on these victories in 2013 and beyond. We still face several obstacles, including

- the real and direct threat to our foreign ownership and control laws that has emerged.
- the downward pressure that this era of austerity has put on capacity, which could negatively affect our careers.
- multiple battles to wage regarding the Transportation Security Administration and Customs and Border Patrol reauthorizations ahead of us.

ALPA-PAC’s work is far from over.

On behalf of the entire Association, I want to thank all of our Century Club, Capitol Club, and President’s Circle members whose names are printed on the following pages. Your loyalty, dedication, and leadership have been essential to our success. We must continue to grow your numbers to help ensure our continued success in the future.

Respectfully,

Capt. Lee Moak
President, Air Line Pilots Association, International
Chairman, Air Line Pilots Association Political Action Committee
